High uptake of Te Tiriti o Waitangi workshops and positive feedback

“I loved that there was just the right balance of information from the course facilitator and interaction/participation/contribution from the participants ... [and] that we had time to look at what we can do in our institution to carry on the message learnt through the workshop.”

“Christine has a great deal of knowledge and understanding about a very complex subject but explains things clearly ... [She] welcomes questions and discussion, which made the session responsive to diverse needs within the group of attendees ... [she] took quite a practical approach to the subject of history... ”
