EngineeringMeasurement images

Introduction

The following pages include images of measurements using tape measures. The images progress in complexity allowing the tutor to present them to a class in order to facilitate discussions and instruction.

This resource is designed to be used with resource:

Engineering: Using a measuring tape

Instructions

- 1. Present the pictures to the learners and have them identify the measurement.
- 2. Ask learners to give their answers. Write these on the board from lowest to highest.
- 3. Ask learners to guess which is the closest.
- 4. Present the answer
