Ōritetanga – Learner Success

Paora Ammunson, Deputy Chief Executive, Tertiary
Education Commission Te Amorangi Mātauranga Matua

3 August 2018

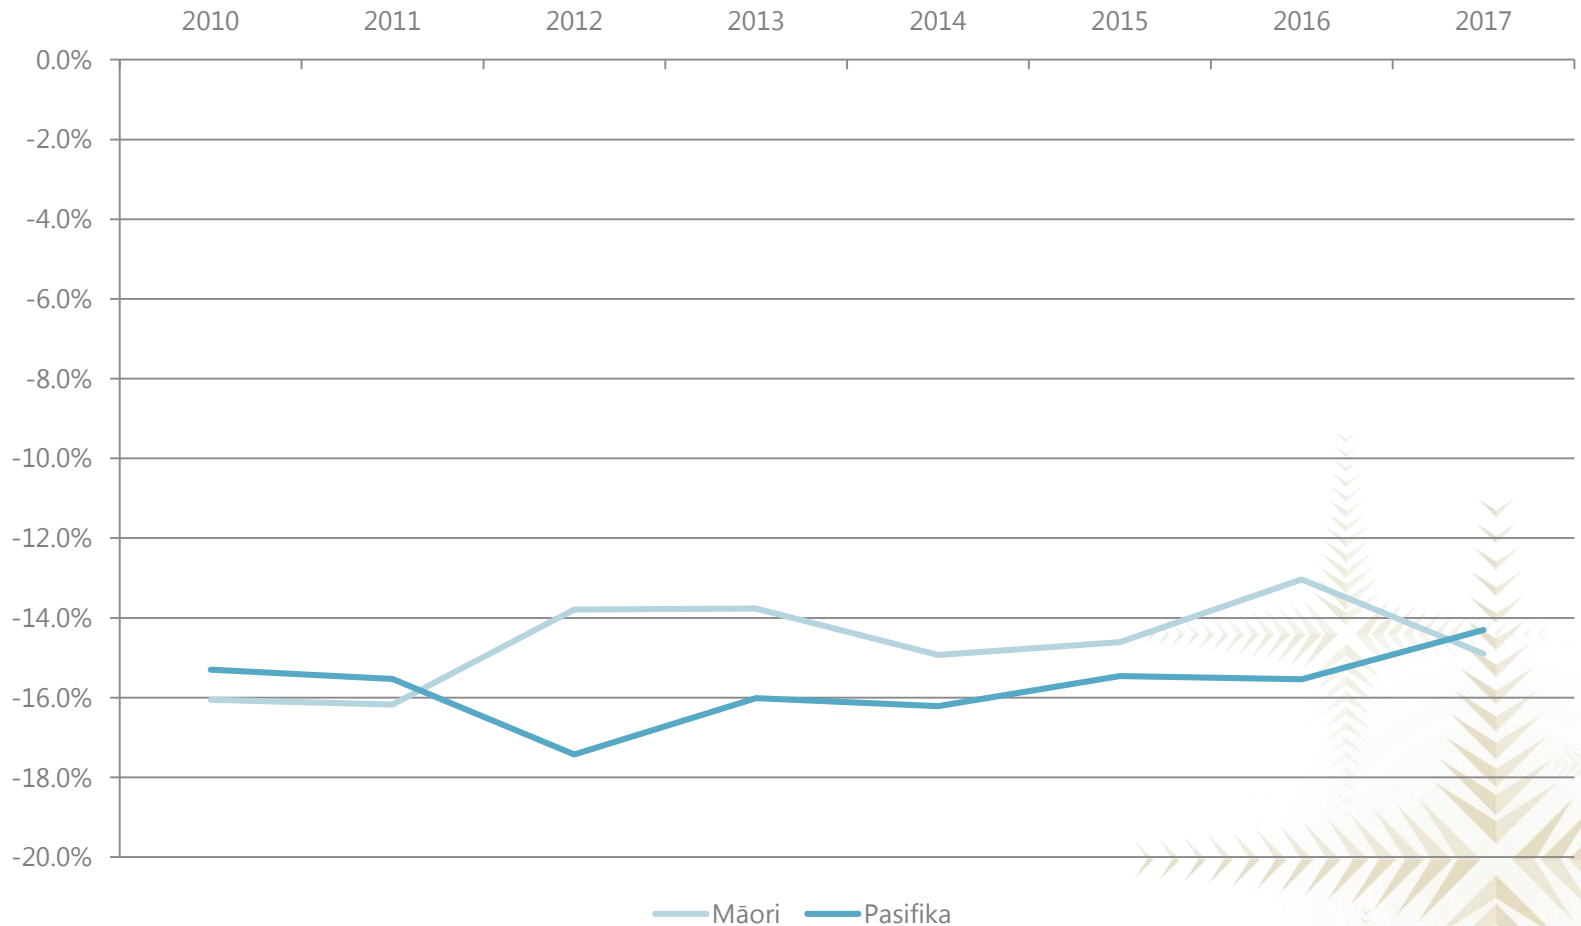

Not all learners are succeeding...

6-Year Qualification Completion rates (level 7 degrees)

And not much has changed

6-Year Qualification Completion rates (level 7 degrees) – compared to non-Māori/non-Pasifika

What we are looking for

- › an **understanding** of what parity will look like across the tertiary system and for each Tertiary Education Organisation
- › a **commitment** from governance & management to achieving parity of achievement
- › teaching and learning that **responds** to the needs of Māori, Pasifika and all underserved learners
- › **support** for Māori and Pasifika students and their families to make informed decisions about, and successful transitions into, tertiary education.

Working with the sector

Inform

- › Ngā Kete (Qlik) Apps
 - *My Performance*
 - *My Commitments*
- › clarity about the specific changes we want to see
- › share best practice
- › post-study outcomes (available soon)

Influence

- › understanding barriers to success
- › understand evidence and solutions
- › engage with Māori and Pasifika leaders in your organisation
- › organisational self-assessment
- › best practice sector workshops
- › monitoring impacts and outcomes

Invest

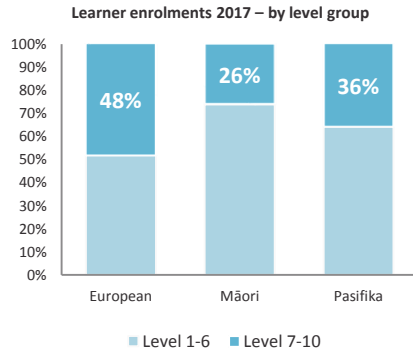

- › evidence-based initiatives which reduce disparities
- › remove funding from provision with poor educational performance
- › further investment in high performance for Māori and Pasifika

ōritetanga learner success

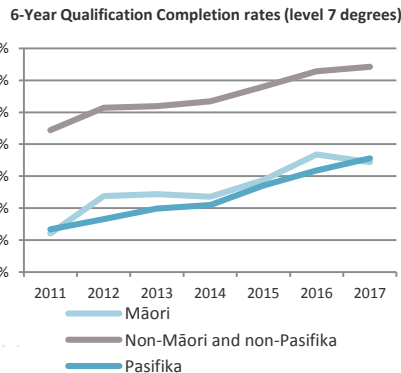

Within **five years** we intend to achieve **participation** and **completion** patterns for Māori and Pasifika that are the same as for other New Zealanders in the tertiary system. We want to ensure that **each learner** receives what they need to be **successful** through the **intentional design** of the learning experience

participation

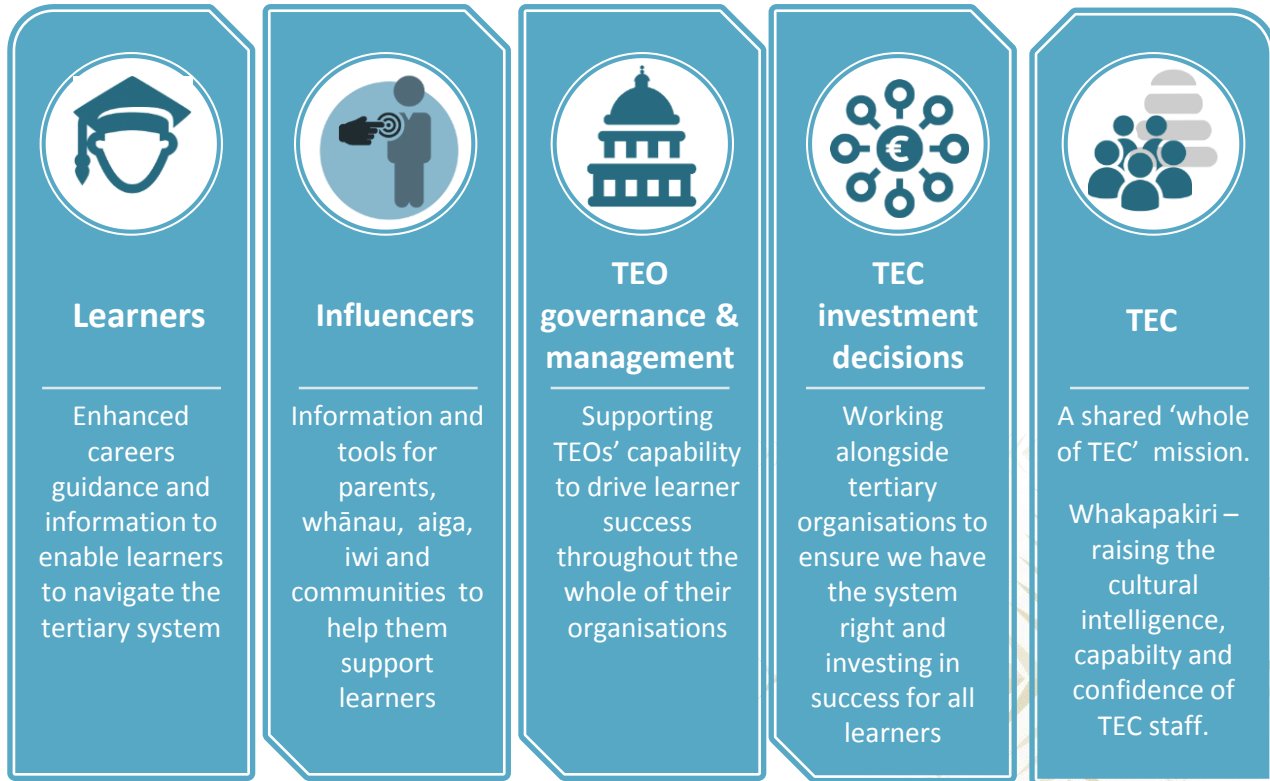

Nearly half of all learners enrol in qualifications at level 7 or above – compared to just over one-third of Pasifika learners and one-quarter of Māori learners

completion

Less than half of Māori and Pasifika learners who enrol in a bachelors degree complete their qualification in 6 years (compared with more than 62% for all other learners)

A tertiary education system that works for everyone

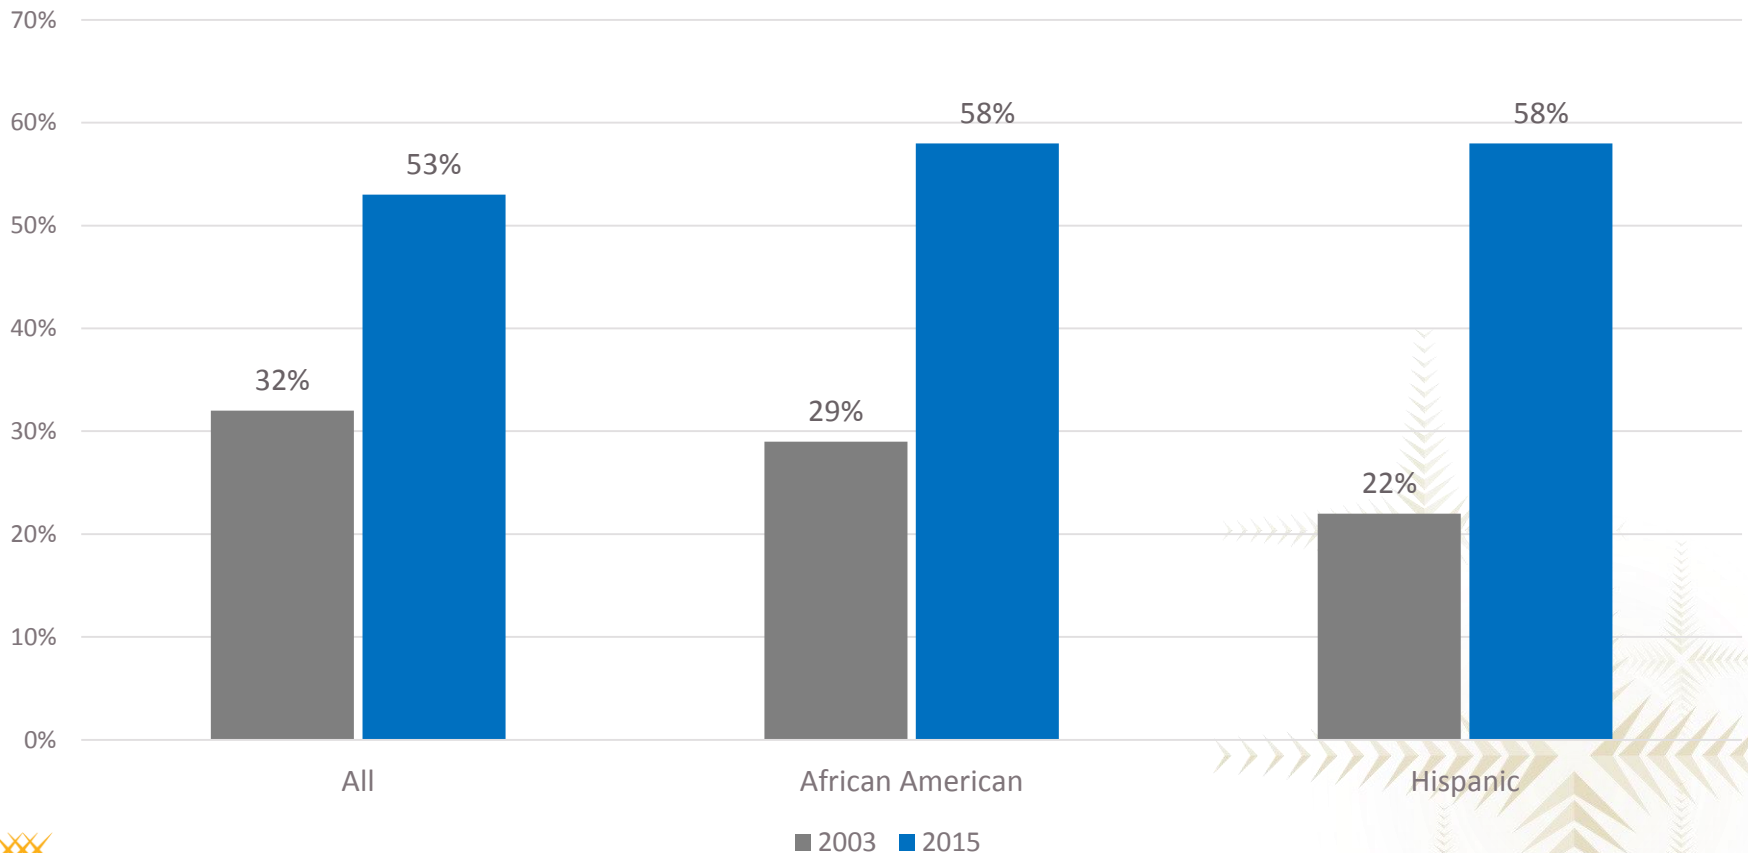

Leadership, project management, and communications

Closing the gap

Georgia State University
6 Year Graduation Rate – Degrees (2003 & 2015)

Achieving the Dream™

Community Colleges Count

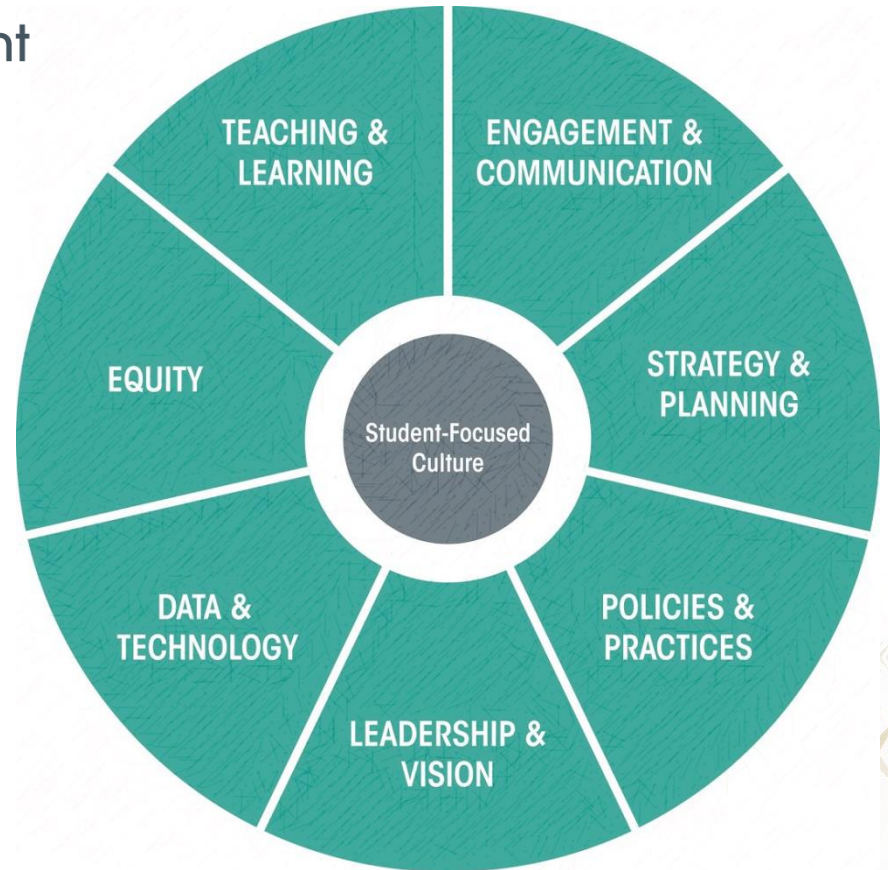

4 million students

220 colleges

40 States + D.C.
